# Weather Key Points

Regional Operations Center

Western Region

Wednesday, June 29

- Notably cooler temperatures will arrive for much of the state through late week and into the holiday weekend, with mainly minor heat risk impacts expected. The exception will be across the southern deserts where locally moderate heat risk impacts will persist due to seasonably hot temperatures.
- Breezy winds are expected many afternoons and evenings for the southern California mountains and deserts as well as areas along and east of the Sierra through the middle of next week
  - These winds continue to bring locally elevated fire weather conditions
  - Some stronger winds are also expected over the Sacramento Valley later Friday and Saturday
  - Widespread critical fire weather conditions are not currently expected over the next 7 days
- Mainly dry conditions will also persist for much of the state, with the exception of far northern California where scattered showers and even a few thunderstorms are possible for the 4th of July weekend, especially Saturday and Sunday

# Precipitation Forecast
